

# Turbo Charge Your Community Data Insight with EmployerLens<sup>®</sup> Analytics

CommunityLens<sup>®</sup> analytics gives you comparative insight about the performance of your community's health and welfare programs. With the 360-degree view, you can:

- Baseline your community's overall health costs and performance.
- Identify your community's historical and current trends.
- See how the community's performance compares nationally and to other regions.
- See overall community healthcare trends and healthcare issues.

## But Do You Find Yourself Wanting More? Are You Wondering:

- How does my company compare?
- Are my benefits programs competitive within the region?
- Can I look beyond health and welfare data to see how other human capital programs, like disability, safety, and absenteeism, are impacting my bottom line?

### For Member-Level Detail, You Need EmployerLens Analytics

The EmployerLens analytics platform gives you real-time, granular data insight.

With EmployerLens analytics, you can:

- **Locate** where your programs are.
- **Map** where your programs need to go.
- **Drive** your programs and quickly adapt to changing conditions.
